SHAVKAT AYUPOV - 60

14 September 2012 is the 60th birthday anniversary of the Doctor of Physical-Mathematical Sciences, Director of the Institute of Mathematics Uzbekistan, Professor Shavkat Ayupov.

Shavkat Ayupov was born in 1952 in Tashkent, Uzbekistan. He graduated from Tashkent State University in 1974, got his Ph.D. degree in 1977 and Doctor of Sciences degree in 1983.

Shavkat Ayupov is a well known specialist in functional analysis and algebra, the organizer, who made a great contribution to the development of science and education in Uzbekistan.

His research interests mainly are in the theory of operator algebras and abstract non-associative algebra. He obtained essential results on automatic continuity and innerness of derivations on algebras of unbounded operators, structure theory of Jordan operator algebras and Leibnitz algebras.

Shavkat Ayupov is an author of 4 books, a textbook, more than 250 scientific articles, most of which were published in international scientific journals.

In 1989 he was elected a corresponding member, and in 1995 active member (academician) of Academy of Sciences of the Republic of Uzbekistan. Since 1980 Sh. A. Ayupov is a member of the American Mathematical Society. He is a Senior associate of ICTP, the Abduls Salaam International Centre for Theoretical Physics (Trieste, Italy).

Since 2003 Shavkat Ayupov is a Fellow of TWAS, the academy of sciences for the developing world.

He is a Chief Editor of the "Uzbek Mathematical Journal" and the popular scientific journal "Physics, Mathematics and Informatics" for school students and high schools and colleges.

Shavkat Ayupov is a member of the International Advisory Board of the "TWMS Journal of Pure and Applied Mathematics" and is doing all his bests for the development of our journal.

The Editorial Board of our journal congratulates Professor Shavkat Ayupov on the occasion of his 60th birthday and wishes him continuing good health, new beautiful theorems in his favorite topics and in new ones, new brilliant pupils.
